

University of Texas at Austin - Dell

Austin, TX

Why UT Austin?

Our outstanding varied clinical classrooms, multi-layered mentorship, strong sense of community and passionate people develop resident graduates capable of practicing in any hospital environment. Serving the most vulnerable in our community, we place an emphasis on leadership training with a special focus on public advocacy and social medicine, emergency department administration, EMS and pediatric emergency medicine. Our residents are a fun and diverse group with a mission-minded focus. Created in the modern era, Austin EM is designed to be resident-centric with a creative and innovative curriculum that includes problem-based small groups, hands-on skills labs, simulation, cadaver labs, and monthly class specific longitudinal focus. Our city - often voted as one of the top places to live - is known for its live music, eclectic food scene, and access to outdoors and an active lifestyle.
